

NAME: _____

CS132 Lab2
sp2026
streller

CODE:

A review of class behavior:

For the inhmulti3.cpp

What is the order of execution of constructors when obj of the derived class is declared?

Can the order be changed? If yes, how. If no, why not.

What is the order of execution of the destructors?

Are obj.fn4(); obj.fn3(); obj.fn2(); obj.fn1(); valid statements in the main? Explain:

For the inhmulti.cpp file

What is the order of execution of constructors when obj of the derived class is declared?

Can the order be changed? If yes, how. If no, why not.

What is the order of execution of the destructors?

What is the purpose of the list following the colon in the derived constructor definition header?
Is the list necessary??

An introduction to templates

For the weird files

1. Make the appropriate additions to weird.cpp and weird.h See the internal program comments. Submit the files with your changes.
2. What is the purpose of using a template when we create a class?

DELIVERABLES:

This lab with questions answered and any requested printouts,

Due Date : 11am 10 February 2026 in Lab
